

# MOTOR REMOTES

## MOTOR CONTROL REMOTES

The motor control remotes feature simple basic control circuitry, with quality components. Housed in a highly visible rugged case. They feature military standard 1/4 turn contactors. Both the 8 way and 16 way use a single 16 channel connector, and the 32 way uses two 16 channel connectors, allowing the remotes to be interchangeable between the distro's.

- Pelican heavy-duty case, with protective lid.
- Military spec' signal connectors.
- Hi brightness LED channel indicators.
- C&K switches.

## STD MODELS

- 32-channel
- 16-channel
- 8-channel handgrip.

All of QED's products are built to the highest construction standards. The internal wiring is loomed and labeled to allow ease of maintenance and inspection. Only high quality components are used throughout. The format, design and layouts are based on years of touring and show experience, taking into account space and power demands. The construction and finish are designed to protect your investment during years of use in the demanding field of portable power distribution.

All QED distro's have the following features in common.

1. Built to conform to or exceed NEC, and UL 1640 portable power distribution standards.
2. All branch current breakers are Airpax LEL magnetic T2 range. These breakers are 100% duty cycle rated at their specified current rating.
3. All internal wiring is 125 deg C rated.
4. All products are finished with a durable epoxy powder coating.
5. Power indicator on both the inputs and outputs.
6. Cam lok covers on the phase outputs.
